

NPORS Instructor Training – Process & Requirements

Thank you for your NPORS Instructor training enquiry!

We would be delighted to help you with becoming an NPORS accredited instructor. Here we outline the process that is required.

1. Meeting the Criteria

Contact NPORS for details of the current criteria.

This typically includes:

1. Current First Aid certificate
2. Approved Health & Safety qualification (e.g. NEBOSH)
3. Valid operator certificate(s) for relevant plant

2. Application

Once you have sent the required evidence and paid the applicable charge, NPORS will process your application and advise if any further information is required. They will inform you whether you can attend a 5-day "bridging" course, or the 10-day novice course.

3. Booking Your Course

Once you have an approved application in place, you are able to book your space with us on the applicable course type. We offer the courses based on a wide range of plant / categories.

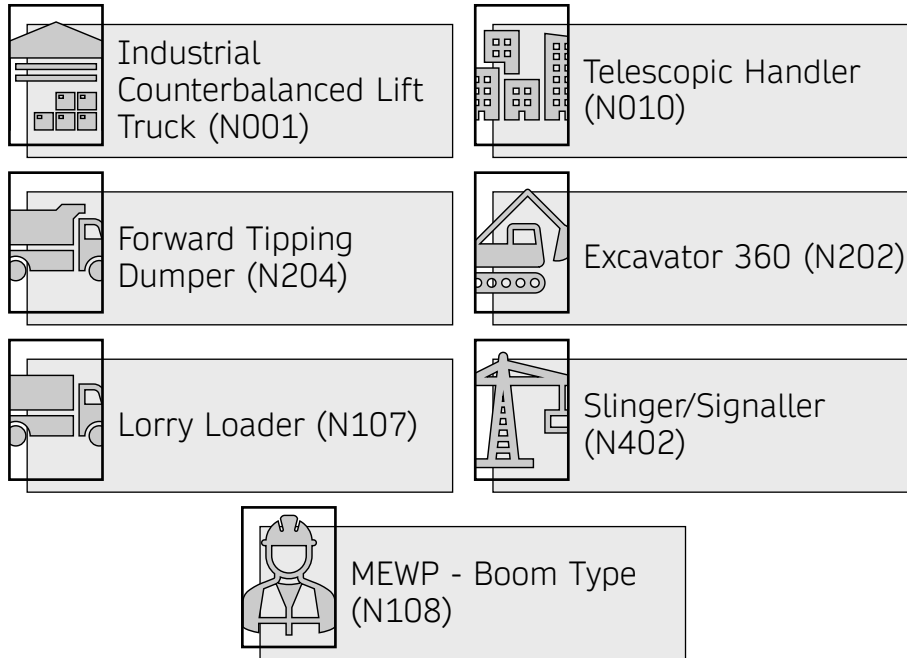

Instructor & Operator Training | Lift Trucks | Plant | Access | Lifting | Health & Safety

Plant & Logistics Training Limited registered in England & Wales (13784172) t/a RCSC Training Centre
8 Darklake View, Estover, Plymouth, PL6 7TL. VAT registration no. GB399788787

NPORS Instructor – Available Course Categories

The NPORS instructor course can be based on a number of categories. Available categories when taking the course with us include:

You must have an approved application with NPORS for the type of equipment your course is based on.

N.B. you will be required to pass an operator test to an enhanced standard as part of your instructor course. Please see our terms & conditions for further details. At the time of publishing, the pass thresholds for these categories are as below:

Category	Operator Points Threshold	Instructor Points Threshold
N001 – Lift Truck	40	25
N010 – Telescopic Handler	40	25
N202 – Excavator 360	20	10
N204 – FT Dumper	20	10
N107 – Lorry Loader	20	10
N402 – Slinger/Signaller	20	10
N108 – MEWP Boom	20	10
